DETAILED ACTION

1. This communication is responsive to the application filed 06/22/2007 and the preliminary amendment filed 04/01/2008.

Claim 1 is presented for examination.

The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Drawings

2. The drawings filed 07/27/2006 are accepted by the examiner.

Claim Objections

3. Claim 1 is objected to because of the following informalities:
 - *"one computing environment."* (page 2/6, line 8) should read *"one computing environment;"*
 - *"said group"* (page 2/6, line 19) should read *"said group of provisioning resource services"*

- “*each base resource instance*” (page 3/6, line 2) should read “*said base resource instance*”
- “*each composite resource instance*” (page 3/6, line 6) should read “*said composite resource instance*”
- “*the description of the computing environment*” (page 4/6, line 15) should read “*the description of the at least one computing environment*”

Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The following terms lack antecedent basis:

- “*the resources*” (page 4/6, line 3)
- “*the plans*” (page 4/6, lines 12-13)
- “*the set of base resource types*” (page 4/6, line 16)
- “*the set of composite resource types*” (page 4/6, line 16)

The following claim limitations are indefinite:

- “*base resources*” (page 3/6, line 18) renders the claim indefinite. It is unclear if it is referring to “*said base resources*” (page 3/6, line 17)
- “*at least one managed resource service*” (page 5/6, line 4) renders the claim indefinite. It is unclear if it is referring to “*said managed resource service*” (page 3/6, line 7)

Indication of Allowable Subject Matter

5. Claim 1 appears to be allowable over the prior art of record, subject to the objections, the 112 rejections detailed above, and subject to a final search.

Conclusion

6. The prior art made of record, see PTO 892, and not relied upon is considered pertinent to applicant's disclosure.
